Are you parents or you living alone and need small reminder to ensure their/your health and well-being? The TamaCare is made for you and will help you everyday.

Each personalized TamaCare assistant is a simple, practical and used-friendly device that gives reminders for multiple essential daily tasks (food, medication, exercise ect...). It is fully programmed by care providers and organize a daily routine pattern for your parents which might simplify their activities of daily life

It is a fun and simple device for motivating and helping people to remember important daily tasks.

The TamaCare serve as:

- Medication remembers,
- Active lifestyle reminders,
- Events & appointment alerts
- Social interaction reminders
- Dieteray alerts.

No understanding about computers or modern technology is needed and updates are set remotly by health care professionals.
